Make meaningful change

In our community **tomorrow.**

Who we are. Impact the Palm Beaches is a group of philanthropic women joining forces to award **\$100,000** high-impact grants to local non-profit agencies who are creating innovative and transformational programs.

What we do. Through collective giving, we amplify each woman's contribution of \$1000. For every 100 members, we are able to fund \$100,000 directly into improving our community.

Added benefits. Learn about local non-profit endeavors while also benefitting from a variety of social activities and leadership opportunities. Alternatively, simply cast a vote at our annual event.

No matter your level of involvement, you will drive positive and important changes in our community!
